I build software that runs businesses. From enterprise publishing platforms to AI-powered restaurant infrastructure, I design, build, and operate products from concept to production.

Selected product & engineering work

JMTF

Founder & Software Engineer

- Build a restaurant platform spanning online ordering, menus, payments, POS integration, and operational tools.
- Connect customer-facing experiences with backend workflows using TypeScript, Next.js, Express, PostgreSQL, Stripe, and Clover.
- Work across product decisions, interface design, AI-assisted ordering, integration testing, deployment, and production operations.

MJH Life Sciences

Jan 2026-present

Product Engineer

Previously Software Engineer | Feb 2021-Dec 2025

- Develop healthcare publishing experiences across web and mobile with React, Next.js, Sanity, GraphQL, and AWS.
- Build frontend and backend functionality for a medical professional community application using React Native and Supabase.
- Work on search, SEO, content delivery, application monitoring, and release workflows across a multi-brand publishing environment.

Jarasa Kabob

Operations & Digital Product Work

- Bring an operator's perspective to digital ordering, connecting the restaurant brand and customer experience with day-to-day fulfillment.
- Implement a shared web presence for two locations while retaining location-specific menus, pricing, POS, and fulfillment workflows.

Earlier experience

A Cultivated Mindset - Frontend Developer, contract | Jul-Nov 2020
React interfaces, Firebase services, and Azure DevOps delivery workflows.

USBizFilings - Web & Mobile Development | Mar-Aug 2020
React Native applications, responsive web interfaces, backend APIs, and payment integrations.

Technical focus

Product engineering: TypeScript, JavaScript, React, Next.js, React Native, Node.js, Express
Data & integrations: PostgreSQL, Supabase, Sanity, GraphQL, Stripe, Clover, Vapi
Delivery & operations: AWS, Vercel, Railway, CI/CD, Sentry

Education

Eastern Michigan University | Bachelor of Science in Computer Science
Mathematics minor | 2022
